

IF FREEDOM FAILED

Curated by the Old Time Radio Researchers (Updated March 2022)

The Old Time Radio Researchers Group (OTRR) presents its curated set of IF FREEDOM FAILED. This set has been proofed against reputable logs and records of the audio sources. We believe these episodes to be accurately identified.

It is always possible that new episodes, improved sound files, or more accurate labels and program information will be discovered; such is the nature of ongoing research. Curated sets have received a level of review above most content in the OTRR library but below that of our Maintained sets. We welcome these new discoveries and encourage anyone involved with such to contact the Old Time Radio Researchers at our [website](#), our [Groups.io page](#), or our [Facebook page](#).

The Old Time Radio Researchers Group would like to thank the following people who contributed to this set: Ryan Ellett, Doug Hopkinson, and Joe Webb.

If Freedom Failed is a 26-episode series produced by the Armed Forces Radio Service in 1951. It presents a series of alternate-history stories of American life under a Cold War-era Communist regime. No other information is known about the background or production of this series at this point. These recordings originated with a private purchasing group and are all transfers made by Doug Hopkinson ca. 2015.
