

OUR MISS BROOKS LOG & OPENING LINES

By Gary Hart, edited by Brian Kavanaugh

The following was originally created by Gary Hart. If you have any additions or corrections, please contact the Old Time Radio Researchers at www.otrr.org, or on [Facebook](#) or [Groups.io](#).

All dates and first lines have been verified by original scripts from the KNX Script Collection, housed in the Thousand Oaks Library, Thousand Oaks California [editor's note: this has been moved to the University of California, Santa Barbara].

None of the scripts are titled, nor did the writers or producers officially name any of the episodes. All the show names have emanated from various collectors over the years. Some are based on oft-repeated phrases (e.g., "An American Tragedy" or "Male Superiority"), others refer to plot twists ("Radio Bombay"), brief general descriptions ("Mr. Conklin's Carelessness Code"), something mentioned at the beginning of the program ("The Weighing Machine"), etc. Because multiple sources are involved, many programs have several alternate titles. The most common have been listed below in bold uppercase letters and alternate titles in italics. Episodes without opening lines listed are not known to exist.

The numbering system in this document refers to episode, not script numbers. There were two sets of script numbers. The first eight shows, which had been prerecorded for broadcast as a summer replacement series are numbered one through eight. Beginning with the first show sponsored by Colgate (October 3, 1948), script numbers re-start at number one and carry on for the rest of the run. There were no other changes. This offers evidence that the first live broadcast was on October 3, and that the first two shows aired in the regular series (September 19 and 26) were transcriptions.

Our Miss Brooks often reused scripts, usually altered in detail, but on several occasions reproduced verbatim. Reproduced is the key word. All shows were original performances, done before a live audience. CBS did not broadcast "re-runs" of past programs during the regular sequence of a series. However, after production had ended on June 17, 1956, the network did air repeats of shows from 1949 through 1952. Beginning with what seems to be a three-week test run in October of 1956 and then as part of the regular Sunday schedule from January 6 to June 30, 1957. Notices about CBS radio programming replaced original Colgate ads and these in turn were likely substituted with local advertisements by affiliate stations. At least two examples of the "sustained" versions are available.

Many of these shows were also edited of all references to sponsorship and aired under the auspices of the Armed Forces Radio and Television Network, with their own announcements inserted in lieu of commercials. It is surprising how many of the shows still available for listening (usually heavily edited) come from this source. And at the same time, given the following quote: "In its hey-day the show was broadcast live from Hollywood at 3:30 to play in the East at 6:30 then did a live repeat for the West four and a half hours later" (John Dunning, *On the Air* p. 529), it is even more shocking how few complete originals have survived.

sustained

The Conklins' Anniversary at Crystal Lake

Our Miss Brooks is an English teacher at Madison High School. She can tell you everything you need to know about the present and past subjunctive, but she's not at all sure about the future, that is her romantic future with biology teacher Phillip Boynton. Like most men of science, Mr. Boynton is quite modest and reticent, especially when it comes to women. Well, this of course is in reality, but in the dreams of Connie Brooks he's sometimes quite another fellow. Listen.

Notes: Often the 1955 program "An American Tragedy" is listed in this slot; see [April 3, 1955](#) for first lines of that show. This script is like the one later used on [August 21, 1949](#). Maureen Gammill played Mrs. Conklin in this version.

231 HOBBIES

Quite frequently in the past when her principal engaged in a project, he expected the members of his faculty to follow suit. So, it was no surprise to our Miss Brooks, who teaches English at Madison High, when two weeks ago, Mr. Conklin took up an old hobby of his and then ordered his teachers to pursue a hobby of their own. At first, she was even quite happy when she was ordered to pursue a hobby.

232 SELLING THE HOUSE NEXT DOOR

In the years she has been teaching English at Madison High, our Miss Brooks has always felt she was as well qualified as any other teacher to be head of the English department, an opinion unfortunately not shared by her principal. Recently however, when there has been a choice between two teachers for something, he has given Miss Brooks the nod.
