

There is not too much known about the series *Police Headquarters*. There are 39 known episodes of this police procedural series. The series was syndicated on NBC stations in 1932.

Each episode is a complete story of 15 minutes, including the silent movie music at the beginning and end. There is not much to the story line: the police are notified of the crime; they investigate at the scene of the crime; and follow the leads to get their man.

Best of all each story gives a glimpse into the 1930s and they are interesting to listen to.
