Welcome to Linguaphone AllTalk *Spanish* – Level Two

Linguaphone AllTalk Spanish is an entirely new audio-only course. It has been devised to help you to understand and speak Spanish without having to consult written material, apart from this introduction and the complete Level Two vocabulary which follows.

As in Level One you will hear native speakers from Spain and from Spanish-speaking countries in Latin America conversing at a normal speed, and with practice you will quickly understand and speak Spanish as it is spoken. Because you will 'hear' the language – rather than 'see' a written version of it – your accent will be an authentic copy of the native speaker accent.

It is always difficult to gain an authentic accent when you can see the words in your own alphabet. Working from sounds alone rapidly gives you confidence in what you hear. It also removes the desire to 'see' the language before daring to use or respond to it.

How to use Linguaphone AllTalk

Linguaphone AllTalk utilises the highly-successful tried and tested Linguaphone method of 'listen, understand, and repeat'. As in the first level, Level Two is divided into eight units, one per CD or cassette. Each of the units is further divided into short sections (denoted by brief musical 'stings'), and it's best, certainly until you feel confident with the grammar and vocabulary, to take each section at a pace you can handle. Don't attempt too much at one go. Stop the recording whenever you feel the need to – either to take a break, or to go back and listen again to what you've just been learning.

This last point is particularly important. One of the great advantages of this audio-only course is that you are in control, and the pace of your learning is entirely up to you. If you experience difficulties at any time and in any section – perhaps with the grammar, with some pronunciation, with comprehension, or with anything else – then take the time to go back to wherever you need to in order to review and revise that section. And when you feel completely confident with what you've learnt, continue the recording.

Included with all the vocabulary and grammar, there are dialogues, comprehension tests and other learning activities. You'll also hear a number of what we've called 'verb boxes' – brief sections in which you can listen to some of the different forms of useful Spanish verbs. The highlighted verbs are also repeated after the Level Two vocabulary which follows this introduction.

Another feature of Linguaphone AllTalk – and a useful and entertaining way to check all the language you're learning – is the dramatised story that occurs regularly throughout the course.

The Story – so far

The dialogues in Level Two continue the story that began in the first unit of Level One, when Linda Wilkinson – representing her company, SnakTrak – arrives in Madrid for the Seventh European Food Fair. Linda has brought some SnakTrak files for the representatives of two other companies – one from California, the other from Buenos Aires – to look over, prior to a possible sale. Unfortunately, the files have disappeared. Equally strange are the phone calls Linda is receiving at her hotel and even on her mobile. Is there any connection between Linda's mystery caller and the missing files?

Communicate as best you can

Three last points before you begin. First: Spanish is one of the world's most important languages. It is spoken in many parts of the globe. Like English, there are, therefore, notable variations in the way it's pronounced, particularly in Latin America, where Spanish is an official language in 19 countries. Although AllTalk concentrates mainly on *el castellano* – Castilian or 'standard' Spanish – you will also hear some of the differences between standard and Latin American Spanish. But don't think you have to learn two kinds of Spanish. With a knowledge of *el castellano* you will be understood anywhere in the Spanish-speaking world.

Second: the more Spanish you learn – and practice what you learn – the more confident you will become with your learning – and in turn, the more you will want to continue to learn and practice. Like any language course, AllTalk is not definitive – you cannot learn all you need or want to know from it. But if you enjoy the course, and want go further with Spanish, why not consider a more advanced course with written materials?

And finally, like any language, Spanish has rules and regulations. Some of them may take time to master – but don't let that put you off. The important thing always is to communicate. Far better to try to say what you want to say – and risk getting it wrong – than not to say it at all. And that's really the only rule for this course: listen and communicate as best you can.

Note: Any similarity to any persons – living or dead – or to any companies mentioned in the course is purely coincidental.

Spanish Vocabulary

a continuación	next	6
a menudo	too often	6
a primera hora de la mañana	first thing in the morning	5
a punto de	on the point of	8
a que sí?	isn't that so?	1
a si que	so	1
